

## **CARBON MONOXIDE DETECTORS**

“The Carbon Monoxide Poisoning Prevention Act” requires all single-family dwellings, duplex, lodging house, hotel, motel, condominium, time-share project, or dwelling to install carbon monoxide alarms or detectors within the home. The effective date for this requirement was July 1, 2011.

The owners of multi-family properties that rent or lease apartments or condos in CA are required to comply with the law.

Senate Bill No. 183

National Fire Protection Association, sections 5.1.1.1

Carbon Monoxide Poisoning Prevention Act of 2010
